

Abu Dhabi Airport Company (ADAC)

Abu Dhabi, United Arab Emirates

2.9 MWp

PROJECT DETAILS

Building Type: **Airport**
Structure Type: **Carpark**
Power Generation: **4,894,000 kWh / year**
Commercial Operations Date: **June 2021**

ENVIRONNEMENT

Avoided CO₂ emissions : **2,117 tonnes / year** Passenger
car miles equivalent : **5,255,118 miles / year** Homes
energy use : **267 / year**

TECHNICAL CHARACTERISTICS

MODULES

Number of modules : **7,542**
Puissance unitaire des modules : **395 Wp**

INVERTERS

Inverter Type : **Fimer PVS-100-TL**
Number of inverters: **24**

CO₂

Emissions Reductions
2,000 tones / year

Electricity Generation
4,894,000 kWh / year
